**Key Skills**

- ◇ ◇ Frontend Development
  - Proficient in **HTML5** and **CSS3** for responsive, accessible, and modern UI design
  - Skilled in building interfaces with **React.js**, including hooks, component-based architecture, and state management
  - Experienced in **Tailwind CSS** for rapid UI styling and custom themes
  - Familiar with vanilla **JavaScript**, DOM manipulation, and ES6+ features
  - Designed clean, animated, and glassmorphic UIs using **modern UI/UX principles**
- ◇ Backend Development & API Integration
  - Proficient in **Django** (Python) for building scalable REST APIs and secure backends
  - Familiar with **Node.js** and **Java (Spring Boot)** for server-side logic and microservices
  - Integrated **OpenAI SDK v1.0+** for AI-based chatbot and assistant features

**Profile**

A passionate and adaptive Full Stack Developer skilled in HTML, CSS, JavaScript, React, Angular, Django, MongoDB, and Node.js, with a strong command over version control (Git/GitHub), AI tools, and UI/UX design using Figma and Canva. I aim to build performant, scalable, and intuitive applications, leveraging both frontend and backend expertise. Seeking opportunities to grow with innovative companies or startups.

**Technical Skills**

**Frontend:** HTML5, CSS3, JavaScript ES6+, React.js, Angular, Tailwind CSS

**Backend:** Python (Django), Java (Core), Node.js (API Integration), Express.js

**Database:** MongoDB, SQLite, PostgreSQL (basic)

**Dev Tools:** Git, GitHub, Postman, VS Code, Chrome DevTools

**Design & Productivity:** Figma, Canva, Microsoft Office 365 (Excel, PowerPoint, Word)

**AI Tools:** ChatGPT, Midjourney, GitHub Copilot, Notion AI, Sora AI

**Other Skills:** RESTful API Integration, Responsive Web Design, Agile Basics, SEO Basics

**Projects****SecurePass Pro** – Password Manager

Stack: React, Tailwind, Django, MongoDB, Bcrypt

Secure password manager with encryption and authentication.

[Live Demo](#) | [GitHub](#)

**Zeroni AI Chatbot** – AI Assistant

Stack: React, Django, OpenAI API, Whisper, TTS

Voice-powered chatbot with TTS/voice input integration.

[Live Preview](#) | [Backend API](#)

**TaskZen** – Smart To-Do + AI Categorizer

Stack: React, Django REST, MongoDB

AI-powered task manager with voice input and productivity features.

[Live](#)

**Weatherify** – Voice-enabled Weather App

Stack: React, OpenWeather API, Vanilla CSS

# SAIF ALI

# FULL-STACK DEVELOPER

- Worked with **Axios** and **Fetch API** for frontend-backend communication

## ◇ Databases

- Experienced with **MongoDB** (NoSQL) for scalable document-based storage
- Skilled in **MySQL** for structured data management and relational queries
- Applied **Mongoose ORM** and Django models for database schema and queries

## ◇ Dev Tools & Version Control

- Daily use of **Git** and **GitHub** for source control, issue tracking, and collaboration
- Hands-on with **Postman** for API testing, debugging, and automation
- Primary development environment: **Visual Studio Code**, with extensions for AI coding, linting, and formatting
- Familiar with deployment tools like **Netlify** (frontend) and **Render** (backend)

## ◇ Additional Skills

- Basic familiarity with **Cloud concepts** and hosting full-stack projects
- Learning and implementing **speech-to-text**, **text-to-speech**, and **voice assistant** features
- Capable of using **Figma** for UI prototyping and design handoffs

Auto-location weather checker with forecast and alerts.

[GitHub](#)

**Currency Converter & Password Suggester** (Python CLI/GUI Apps)  
Python-based utility apps solving real-world problems with simple UI.

## Education

**Master of Computer Applications (Pursuing)**

*Jamia Hamdard University, New Delhi*

Expected Graduation: 2027

**Bachelor of Computer Applications**

*Maharshi Dayanand University, Faridabad*

Graduation: June 2025

**Relevant Coursework:** Web Development, OOP, Data Structures, Databases, Software Engineering

## Certifications

- IT & Career Readiness – Anudip Foundation & EY
- Networking Basics – Cisco Networking Academy
- Introduction to Cybersecurity – Cisco Networking Academy

*Portfolio*

**I use AI in every part of development — from coding, bug fixing, documentation, to design — to deliver 10x faster and smarter results.**
